PRESENTATION

Building engineering is the master key to the open challenge dominating our world and its future.

SDBES'24 is a meeting dedicated to cutting edge research that addresses the scientific needs of academic researchers, industrialists and professionals to explore new horizons of knowledge on various topics in the interlink between the different civil engineering sectors and environment.

SDBES'24 will be held at the university of Medea, Algeria, on **June 23, 2024**. It is scheduled to include high-quality contributions during presentation sessions, and also to engage participants in interesting discussion sessions.

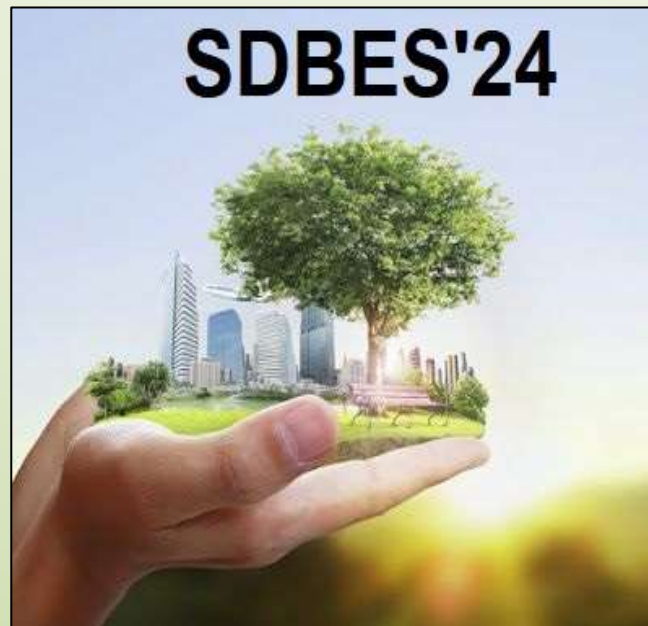

Accepted scientific works will be presented orally or posted in the corresponding conference session listed in topics (see joined list).

This first edition of the **SDBES'24** aims at moving closer to the scientific community by the presentation of their recent works, by the exchange of their scientific experiments and sharing of knowledge acquired in the field of the Civil Engineering and Public Works.

TOPICS

Scientifics works on all aspects coupling Building Engineering, Public Works, and Environment will be welcome. The main topics are:

- **Topic 01:** Advanced Construction Materials and sustainability.
- **Topic 02:** Behavior of Structures and Dynamics.
- **Topic 03:** Geotechnical and public works.
- **Topic 04:** Risks assessment and safety.
- **Topic 05:** Modeling and Numerical Analysis.

IMPORTANT DATES

Full Abstract Submission: ~~June 01~~ **June 10, 2024**

Notification of acceptance: **June 15, 2024**

Confirmation of participation: **June 20, 2024**

SDBES date: **June 23, 2024**

SUBMISSION OF ABRACT

All authors are invited to submit their abstract written in Arabic, French or English to:
